Recommended Workout Plan

1. **Glute Bridges** — 5 minutes total, 1 round, equipment: none
2. **Standing Calf Raises** — 4 minutes total, 1 round, equipment: none
3. **Clamshells** — 4 minutes total, 1 round, equipment: none
4. **Side-Lying Leg Raises** — 4 minutes total, 1 round, equipment: none

Total Time

17 minutes

Why This Plan

Case 2 output continuation: safety note and conservative coaching response.

Why This Plan

selected 4 exercise(s). kept the session to about 17 minute(s). preferred main legs exercises before warmup-like moves. used dorm-friendly options. removed exercises that may aggravate the reported pain.

Safety Note

You reported pain, so this plan stays conservative. Stop if pain gets sharper, spreads, or changes how you move, and consider checking with a clinician if needed.

In-the-Moment Coaching Check

Pause the workout now. Do not push through pain. Rest, breathe, and only switch to very gentle movement if the discomfort clearly settles.

If the pain is sharp, worsening, or changes normal movement, stop exercising and consider medical guidance.
